

Publications (reviewed)

Remark Since 1990 I am the Managing Editor of the journal "Mine Water and the Environment" published with Springer Germany. Before that time the journal was printed "in-house" and I transferred that journal into an internationally renowned journal, which is now listed in the Science Citation Index Expanded and between 2010 and now had impact factors between 0.62 and 1.21. Since 2008 the proceedings of the International Mine Water Association are also listed in the "Conference Proceedings Citation Index-Science".
